Response to Arguments

2. Applicant's arguments filed Jun 18, 2000 have been fully considered but they are not persuasive.

The examiner respectfully traverses Applicant's primary argument.

In response to Applicant's argument that Thomas (U.S 5,838,970) does not teach "associating a meta-data attribute with a stored true-data attribute" and "the meta-data value field describes the associated true-data attribute". On the contrary, Thomas teaches:

- *"storing information required to perform object operation in a plurality of changeable repositories accessible to object broker" at Col. 3 lines 23-25, and*
- *"information identifying the storage location of an object is kept in a location repository reserved for that purpose and updated periodically. This is a form of "indirect addressing" which enables an object to be moved, or one object to be substituted for another, without altering the location reference utilized by client application program that activate the object. Only the contents of the location repository itself need be changed" (Col. 3 lines 32-42)*

In this case, the meta-data value field (location repository) describes the associated true-data attribute (location of an object)

Conclusion

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP, 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
